TRANSFORMING THE FORMER FILTON AIRFIELD INTO BRABAZON:

A Thriving New
Neighbourhood For Bristol

For over a century, the historic former Filton Airfield has been Bristol's home for innovation and invention. As the birthplace of supersonic travel, its local community changed the world. YTL Developments is now transforming this historic local landmark into Brabazon - a new urban community that is designed to be different.

But today Bristol faces a housing crisis, a climate emergency and the challenge of building back better from Covid-19. Brabazon could do more to tackle these challenges so we will be updating the Masterplan in 2022. We want to hear your views so that together we ensure that Brabazon remains a place to inspire the next generation and that lives up to the legacy of the Airfield's pioneering past.
