**Appendix A.**

**BMX track improvements**

South Glos Council have funded the Parish Council £55,641 for the improvements to the BMX track. The facility is extremely popular with local residents ranging from all ages and all small wheel-based sports, scooters skateboards and BMX bikes.

As well as Parish Council policy it is part of the SGC Grant Application policy to submit three quotes and the tenders received are below:

Quote 1- C & K Contractors = £54,375.00

Quote 2 -Stay Strong = £59,745.00

Quote 3 – Rolling Studio = £62,000

All companies are specialist contractors in this field and have shown great interest sharing the enthusiasm we have in this project, which once built will provide such an excellent resource in the area.

C & K Contractors have visited the site many times tweaking the design and making the costs more efficient and impressed Officers to date. They designed a purpose-built track in 2012 used in the Olympics and I feel would be the best suited company for the council to provide this much needed improvement in the local area.

John Rendell.

**Appendix B.**

**Meade Park Play Area replacement.**

£26,289.09 funding approved by SGC CIL and received in Parish Council account.

The current play equipment is very old and showing signs of wear and tear. Council staff have been maintaining the equipment and making necessary repairs where possible, but the equipment is becoming unfit for purpose and has been recommended for replacement. The Parish Council has been awarded funding for this project and has received the funds for the works to take place asap.

The current play area at Meade Park:

Proposed new outlook:

As per council policy we have met with three specialist Play Area companies and have obtained three quotations.

Quote 1 – Pentagon Play Equipment = £26,340

Quote 2 – Play Quest = £26,910

Quote 3 – Creative Play = £29,703

Pentagon Play have tendered the most effective costs and I have worked with them before on previous projects. They are an excellent company based locally and provide an excellent play space design spec for us at Meade Park. A similar project has been recently completed locally which has transformed the local park and I am sure the local residents would welcome this superb new play facility.

John Rendell.

**Appendix C.**

**Sports equipment at Little Stoke Playing Fields.**

£11,230 Funding received from SGC to update sports equipment at Little Stoke Playing fields.

We have now received three quotes to replace two sets of 12 metre rugby posts including ground works and installation costs, and one set of football goal posts.

Quote 1 – Doug Hillard Sports = £10,223

Quote 2 – Fitness Sports = £10,948

Quote 3 – CJ Sports & Play = £11,365

Although the equipment itself is expensive a large part of the costs is due to the amount of ground works involved. Removal of existing posts, digging out concrete sections and soil, then installation of 10 cubic metres of concrete to cover 8 holes and install. Topsoil and return to finish.

Installation of posts will be to RFU standards and guidelines. (3.5 feet underground level full of concrete)

3-5 days, access to field for JCB, cement mixer and large skips.

All current equipment is very old and has been identified as needing replacement asap. Doug Hillard Sports have provided the most efficient cost and can carry out the works immediately ensuring the work can be completed before the start of the new Rugby season.

John Rendell.
