PARKS MAINTENANCE INCLUDING GRASS CUTTING

General parks maintenance including grass cutting is undertaken across all the parks and open spaces that are managed by the Parish Council. The frequency of grass cutting will vary across the parks and open spaces, and the schedule is site specific. Some areas of grass will be deliberately left longer during certain periods throughout the year to benefit wildlife and to create wildflower meadows.

OVERHANGING TREE BRANCHES INTO NEIGHBOURING PRIVATE PROPERTIES

If the tree is not subject to any restrictions imposed by the Council i.e., Tree Preservation Order (TPO) the property owner has the right to prune overhanging parts of a tree back to the boundary of the property but not beyond. It is always advisable to be polite and to inform the Parish Council of your intentions to prune any trees and to agree the method of the pruning. You cannot enter a neighbour's property without permission to prune trees. The tree owner is not obliged to pay for or undertake the pruning of limbs overhanging the property of a third party.

PLAY AREAS IN PARKS

The management of sound play areas are achieved by capital investment, installing good equipment and surfaces. Adequate funds are placed in the revenue budget each year to maintain the play areas. Funding for capital refurbishment and revenue costs comes from the Parish Council's Precept (Council Tax), although every effort is made where possible to obtain external funding from a variety of sources.

The Parish Council welcomes any input from the local community in relation to future projects with various forms of consultation. The Parish Council is committed to installing facilities that it can afford to maintain.

The Parish Council complies with the requirements for play areas as identified by the Health and Safety Executive and conducts external annual play inspections across all sites with play areas. These

areas do offer a broad range of essential opportunities for child development, enjoying freedom, exercise, choice and control over activities. The equipment provides testing boundaries and exploring risks, as well as physical, social and intellectual experience. They also support general wellbeing, healthy growth and development. The Parish Council is aware that play provision is not only required for young children, but also for teenagers. In providing facilities for teenagers, the Parish Council consults with young people for suitable locations, personal safety and post inspection requirements. The Parish Council makes every effort to consider Special Needs as part of any upgrading play areas, including compliance with the Disability Discrimination Act, and takes reasonable steps to remove unreasonable barriers.
