Technical information about this website's accessibility

Stoke Gifford Parish Council is committed to making its website accessible, in accordance with the Public Sector Bodies (Websites and Mobile Applications) (No. 2) Accessibility Regulations 2018.

This website is partially compliant with the [Web Content Accessibility Guidelines version 2.2 AA](#) standard, due to the non-compliances listed below.

Non accessible content

The content listed below is non-accessible for the following reasons.

Some older PDF and Word documents do not meet accessibility standards – for example, they may not be structured so they're accessible to a screen reader. This does not meet WCAG 2.2 success criterion 4.1.2 (name, role, value). Any new PDFs or Word documents we publish will meet accessibility standards.

Embedded Google Maps are used on this website to display the locations of council buildings, assets and other public facilities. These maps are provided by a third party (Google), and the content within them may not fully meet accessibility standards – for example, some interactive controls or map features may not be correctly labelled or navigable for screen reader users. This may affect compliance with WCAG 2.2 success criteria 1.1.1 (non-text content) and 4.1.2 (name, role, value). While we cannot fix accessibility issues inside third-party embeds, we ensure that each map iframe includes a descriptive title, and we provide full location details as accessible text alternatives alongside the map.

What we are doing to improve accessibility

We have a rolling programme of updating the content and design of this website in accordance with the guidelines set out by the WCAG and will continue to assess and improve our accessibility based on these guidelines, user testing and user feedback.
